Saving the Revolution Lafayette's Escape at Barren Hill

Sunday, February 19, 2012

2:00 p.m.

Headquarters
654 DeKalb Street
Norristown, PA

The story of Lafayette's escape from the clutches of the British was considered nothing more than a minor skirmish and insignificant to the Revolution story. Because of recent research, retired history teacher and historian, Rudolph Cusumano, discovered how Commanding General Sir William Howe distorted the truth to hide his failure and downplay the American escape. An American failure could have doomed Washington's Army at Valley Forge and ultimately the Revolution. Mr. Cusumano will speak on the life of this Patriot for the American Cause.
